This book proposes a feasible medium-term objective for AIDS policy: achieving an "AIDS transition," that is, keeping AIDS deaths down by sustaining treatment while pushing new infections even ...

Achieving an AIDS Transition - Brookings

CHAPTER 2 Using Incentives to Prevent HIV Infections (pp. 33-79) As defined in the previous chapter, an AIDS transition requires maintaining recent reductions in AIDS mortality and reducing new infections even more. The last ten years have demonstrated that through concerted effort, donors and governments have reduced AIDS mortality dramatically.

Achieving An Aids Transition Preventing Infections To ...

Decarbonizing the electricity sector is critical for addressing climate change, particularly given the expected role of an expanded clean electricity system for home heating, transportation, and industry ([1][1]). This will require vast investment in new infrastructure such as renewable-energy power plants and batteries. Absent major investment in carbon-capture equipment or fuel switching ...
