American identity has always been capacious as a concept but
narrow in its application. Citizenship has mostly been about
being here, either through birth or residence. The territorial
premises for citizenship have worked to resolve the peculiar
challenges of American identity. But globalization is detaching
identity from location.

Professor Peter J. Spiro's 1 book, *Beyond Citizenship: American Identity After Globalization*, 2 examines the changing nature of citizenship, specifically U.S. 3 citizenship, in the face of globalization. Spiro's analysis comes to some rather radical conclusions about the future significance of citizenship and the role of nations in international politics and everyday life.
