~~Hobart CT 300, AC DC Cyber Tig, Welder Instructions and ...~~

Found a Hobart CyberTIG, and have NO clue if this is worth anything. Never heard anything about them. Good machines? Energy hogs? Worth it to source parts for and get running? I DON'T KNOW IF IT RUNS, but will call and ask when I have the money. They're asking \$200, so I'm skeptical about it running. If it doesn't run, would it be worth the money to try and get it fixed?
