The core of differentiation is a relationship between teachers and students. The teacher's responsibility is connecting content, process, and product. Students respond to learning based on readiness, interests, and learning profile.

Differentiation In Physical Education | **The PE Project**

Differentiation In The Classroom As educators we all recognise that differentiation in the classroom is vital as students are individuals who learn at different rates and in different ways. However, planning, programming and assessing for the wide variety of needs and interests of multi-age and multi-ability classes can be quite a challenge!

Differentiation in the classroom – 7 methods of ...

As Carol Ann Tomlinson has said, differentiation means giving students multiple options for taking in information (1999). Differentiating instruction means that you observe and understand the differences and similarities among students and use this information to plan instruction.

What Is Differentiated Instruction? | Scholastic

Differentiated instruction (DI) is an effective approach. "Differentiation is simply a teacher attending to the learning needs of a particular student or small group of students, rather than teaching a class as though all individuals in it were basically alike." (Carol Ann Tomlinson) The four components of Differentiated Instruction include:

Differentiated Instruction | Adult Education and Literacy ...

Differentiation in the classroom — 7 methods of differentiation. To cater to a class of mixed-ability pupils, teachers can use seven different methods of differentiation. Learn about them here.
