E contracts, or electronic contracts, are a type of contract formed online. The interaction between the parties in forming the contract can be by many different electronic means: e-mail, through a computer program, or by two electronic agents programmed to recognize the formation of the contract.

[Contracts - Pima County](#)

Having an electronic signing process in place with a legally binding contract adds a technological barrier to any contract shenanigans, like I described above. In those cases, both could have been prevented altogether using e contracts with e signatures based on firm contract law.

[Contracts - E&I Cooperative Services](#)

A contract is a legally binding agreement that recognises and governs the rights and duties of the parties to the agreement. A contract is legally enforceable because it meets the requirements and approval of the law. An agreement typically involves the exchange of goods, services, money, or promises of any of those.
