### **evinrude model number hbfl2k trolling motor**

The Evinrude trademark appeared on electric trolling motors for five model years, 1974 through 1979. The Evinrude 12-24 electric trolling motor has three wires: one red, one white and one black. Only one jumper wire is needed to connect the two batteries because the only negative connection required -- the only ground ...

Motorguide electric motors are used on various types of vessels - inflatable rubber and PVC boats, aluminum, plastic boats and multi-seat boats. Motorguide are designed to operate in both freshwater and seawater, they are excellent for ponds with the prohibition of the use of gasoline engines, and for trolling - trolling.
