Create a ZIP File in Oracle Using PL/SQL. First, download the Alexandria PL/SQL library from the Github using the following link Download.; After downloading the file, extract it and locate the zip\_util\_pkg.pks and zip\_util\_pkg.pkb files in the \alexandria-plsql-utils-master\ora\ directory and execute these scripts in your Oracle Database Schema to install it.

*PL/SQL utl\_file read file tips - Burleson Oracle Consulting*

In Oracle PL/SQL, UTL\_FILE is an Oracle supplied package which is used for file operations (read and write). UTL\_FILE works for both server and client machine systems. A directory has to be created on the server, which points to the target file. For the files located on the server machine, the actual path can be given while creating the directory.
