

John Deere Power Flow Chute Installation Manual

John Deere Power Flow Chute
The Power Flow chute is required, along with the high-performance Power Flow blower, to use the 2-bag Power Flow material collection system. The chute includes a convenient handle and a fill indicator that tells the operator when the bags are getting full. One chute works with several vehicle applications.

John Deere Power Flow Chute For Bagging Systems BM21681
The Power Flow chute is required, along with the high-performance Power Flow blower, to use the 3-bag Power Flow MCS. The chute includes a convenient handle and a fill indicator that tells the operator when the bags are getting full. One chute works with several tractor applications.

BM21681 - Chute fits John Deere | AFTERMARKET.SUPPLY

Power Flow™ Chute GXT002256-UN-15JUL15 The material collection system requires unrestricted airflow from mower deck to bags for best performance. A fill indicator on the bagging chute measures airflow through the system.

OMGX26370 - John Deere

That chute will connect to your rear bagger or to the MC519 tow behind cart. Chute is not included. There also is a big Z shaped arm (part C) that slides into a mounting slot on the powerflow and the other end slides into a bracket that bolts on the side of your deck. This bracket (part B) and Z shaped arm would need to be purchased separately.
