Science of Loneliness - Human Nature and the Need for ...

Loneliness: Human Nature and the Need for Social Connection. Loneliness, contrary to human nature due to the disposition toward social communication and unity (Cacioppo & Patrick, 2008), is a negative situation occurring due to the insufficient quality and quantity of social relationship networks of an individual.

Loneliness Human Nature And The Need For Social Connection ...

'Loneliness: Human Nature and the Need for Social Connection'. Updated Nov. 28, 2008 8:52 p.m. ET Katie Bishop grew up surrounded by aunts and uncles, grandparents and cousins, in a small community that was nothing if not closely knit. Between family events, church events, sports, and music, her entire childhood was spent among...

Loneliness: Human Nature and the Need for Social ...

About book: A fantastic book revealing the intricate nature of human social needs. Cacioppo & Patrick discusses loneliness based on social psychology and biological (incl. genetics & neurology) research.

'Loneliness: Human Nature and the Need for Social Connection'

that subjective feelings of loneliness (how lonely a person feels) were a better predictor of physical health than an objective measure of isolation (the actual number of friends and connections a person has). The rest of the book is about its subtitle, human nature and the need for social connection, and the research that bears on this question.

John Cacioppo: 'Loneliness is like an iceberg - it goes ...

Transient (state) loneliness is temporary in nature, caused by something in the environment, and is easily relieved. Chronic (trait) loneliness is more permanent, caused by the person, and is not easily relieved. For example, when a person is sick and cannot socialize with friends would be a case of transient loneliness.

Loneliness: Human Nature and the Need for Social ...

For many people old age is not a time of reflection and contentment, but of fear and loneliness. With shorter marriages and longer lives, more elderly people than ever are living alone, and a new report by Help the Aged suggests over one million of them say they often or always feel lonely.

Loneliness Human Nature and The Need for Social Connection ...

Divided into three sections, Loneliness: Human Nature and the Need for Social Connection delineates and defines loneliness as a chronic syndrome, makes a distinction between loneliness and other emotional disorders such as anxiety and depression and concludes by giving positive corrective strategies that may help an individual cope and recover from loneliness.

Loneliness: Human Nature and the Need for Social ...

University of Chicago social neuroscientist John Cacioppo unveils his pioneering research on the startling effects of loneliness: a sense of isolation or social rejection disrupts not only our thinking abilities and willpower but also our immune systems, and can be as damaging as obesity or smoking.

Loneliness: Human Nature and the Need for Social ...

Human is obligatorily gregarious. It's meant that human needs companionship not only to feel happy, but also to survive. Loneliness is a signal for human to find another human, just like hunger is a signal to find food. It is a survival instinct carried from our ancestors whereas they can't survive in nature without forming a community.

Loneliness - Wikipedia

Loneliness, he says, impairs the ability to feel trust and affection, and people who lack emotional intimacy are less able to exercise good judgment in socially ambiguous situations; this makes them more vulnerable to bullying as children and exploitation by "unscrupulous salespeople" in old age.
