As a reflective teacher, you know that 'reflect' means to 'contemplate; to think seriously.' However, reflection goes far beyond this meaning in an educational setting. It's a critical self-regulation factor that motivates teachers to monitor their performance and evaluates their progress against specific criteria.

How Teachers Use Reflection and Evaluation in Education

- The elements of collaborative analysis of student work
- Understanding reflective practice

The reflective question in the SLA admissions interview is a great tool for getting to know the student, but it doesn't do much to actually serve their learning process. It's completely divorced from the setting where the student actually did the work, and besides, the student already completed the project.
