HVAC Air Duct Leakage - Sheet Metal & Air Conditioning ...

SMACNA published the HVAC Air Duct Leakage Test Manual in conjunction with the SMACNA HVAC Duct Construction Standards. Research proved that duct leakage could be well defined as a function of the static pressure and the surface area of the duct. This allowed for the introduction of leakage classes that could be used to calculate and accurately represent the leakage of air from ducts of various sizes and configurations.

HVAC Air Duct Leakage Test Manual
SMACNA and NEBB recommend use of leakage class for specifying allowable leakage. To calculate allowable leakage, you must know the system surface area, the required test pressure and the specified leakage class.
