Now that you are beginning hemodialysis, there may be many changes in your daily life. Your doctor has probably told you that you may need to make some changes in your diet. The renal dietitian at your dialysis center will help you plan a diet for your special needs. Why do I need to be on a special diet? Because your kidneys are not able to get rid of enough waste products

*Non-CEU Hemodialysis Essentials - AREP*

You can have hemodialysis in a hospital, a dialysis treatment center, or at home. If you have it in a center, the sessions last 3 to 5 hours, and you'll likely only need them three times a week. If you have hemodialysis at home, you'll need treatments 6 or 7 days for 2 to 3 hours each time.

*The Essentials of Clinical Dialysis | Yong-Lim Kim | Springer*

The preservation of patent, well-functioning dialysis fistulas is one of the most difficult clinical problems in the long-term treatment of patients undergoing dialysis. As many as 25% of hospital admissions in the dialysis population have been attributed to vascular access problems, including fistula malfunction and thrombosis.
