However, it's important to check your owner's manual before performing any maintenance on your Trane or any air filter. HOW OFTEN DO I NEED TO CLEAN/CHANGE MY FILTER? You should always double-check your owner's manual for specific recommendations, but generally speaking it's best to clean or change your filters once every 3 to 9 months.

Through the years, Trane has designed and developed the most complete line of Packaged Rooftop products available in the market today. Trane was the first to introduce the Micro—microelectronic unit controls—and has continued to improve and revolutionize this design concept.

RT-PRC023AG-EN (07/14) Packaged Rooftop Air Conditioners ...

That's what I was afraid of...there doesn't appear to be any fault codes. On the ignition control, the status light is solid green and on the control board the status light is blinking about every second..looks like a call for heat.

Gas Furnace Troubleshooting | Trane

Trane's line of connected digital thermostats allow homeowners to control the temperature of their homes from any Internet-connected PC, tablet or smartphone. If the Internet connectivity on your Trane thermostat isn't working, try resetting the unit and following the wireless connection steps outlined in your owner's manual.
