China Institute of Water Resources and Hydropower Research
(IWHR) is a national research institution under the Ministry of
Water Resources of China, and is engaged in almost all the
disciplines related to water resources and hydropower research.

Applegate Group, Inc. | Water Resource Advisors for the West
Hydraulic engineering is the application of the principles of fluid
mechanics to problems dealing with the collection, storage,
control, transport, regulation, measurement, and use of water.
Before beginning a hydraulic engineering project, one must
figure out how much water is involved.

Water Resource Engineering Since 1993. Zancanella and Associates, Inc. is a professional water resource engineering consulting firm specializing in the fields of water rights, surface and groundwater resources and water supply planning, development and operations.

Journal of Water Resource and Hydraulic Engineering:Home Hydropower is the most important and widely used renewable source of energy especially in electricity generation; for irrigation and large scale water supply. Our services are tailored to meet our clients' expectations on these deliverables.

School of Water Resources and Hydropower Engineering, WUHAN U

CADSWES research focuses on natural resource management, particularly the sustainable management of multi-objective water resource systems in areas such as climate change adaptation, modeling of multi-objective water resource systems, improved short and long term forecasting under hydrologic variability, and hydropower optimization.

HYDROPOWER AND WATER RESOURCES - Lahmeyer

Our expertise lies in water planning, water rights engineering, water policy, and development of water infrastructure to ensure access to a continuous supply of clean water. We engineer water resource solutions and oversee the construction and maintenance of the systems as well.

Hydropower Engineering | Kleinschmidt Group

--China Hydropower Engineering Consulting Group Corporation (HYDROCHINA) is part of China Electric Power Construction Group Co., Ltd., in December 2002 the State Council approved the establishment of its predecessor, the government in charge of Water Resources and Hydropower Planning, development, building institutions-Water Resources and ...

[PDF] Water Resources and Irrigation Engineering By V ...

The firm is comprised of professionals holding degrees in the areas of civil engineering, water resources engineering, agricultural engineering, geological engineering, watershed science and hydrogeology. The office of Spronk Water Engineers, Inc. is located in the Capitol Hill neighborhood of Denver, Colorado.

Hydraulic engineering - Wikipedia

Water and energy are considered as the two most important resources for human life and development, and can be represented by the nexus for the cross-sectional connection including water supply,...

Water Resources And Hydropower Engineering

Journal of Water Resource and Hydraulic Engineering (JWRHE) accepts original manuscripts on all topics of water resources, hydrologic theories, hydropower engineering, and environmental aspects of water quality and conservation.

| International Hydropower Association

What We Do. Kleinschmidt provides hydropower engineering,

regulatory and environmental services for North American energy companies and governmental agencies who endeavor to protect and enhance the natural environment, without compromising performance.

Research | Center for Advanced Decision Support for Water ...
Sigma provided engineering design, approvals and tender for the Water to Wire Turbine Supply contract and the General Construction contract, services during construction and commissioning for two run of river projects totaling 20 MW installed capacity. The project, located near Terrace, British Columbia, was completed in 2015.

Spronk Water Engineers, Inc. - Home
Colorado is likely to have numerous hydropower opportunities in this particular area, given its topography and the geographic locations from which its water flows. The Colorado Energy Office created the Colorado Small Hydropower Handbook, which serves as a step-by-step guide to developing projects in Colorado. This handbook can be accessed here.

Hydropower | Colorado Energy Office
The Colorado Water Resources and Power Development Authority provides low-cost loans to governmental agencies in Colorado primarily for water and wastewater infrastructure development.

Hydropower & Water Resources - OTIS ENGINEERING
The School of Water Resources and Hydropower Engineering (SWHRE) consists of four departments, i.e. Department of Agricultural Water Resources Engineering, Department of Hydropower Engineering,...

Sigma Engineering Hydropower and Water Resource ...
schemes and special hydraulic structures require multi-disciplinary engineering skills. In Lahmeyer International's Hydropower and Water Resources Division, it combines these skills which are necessary for the planning and implementation of complex hydropower and water resources projects.
